7. Agenda Item No. 7 - Approval to purchase 2021 Ford F550 truck with service body and Versalift Insulated Bucket utilizing state contract from Wade Ford, Smyrna, Georgia.

Staff has been researching and planning for a bucket truck replacement for a couple years. The current bucket truck is a 1999 model Ford F350, (23 years old). Due to the environmental effects and age, the current truck is requiring many repairs, several of them pertain to the hydraulic system of the bucket lift. Staff discussed our options with various vendors and other local governments in the past year. Staff is increasing our height and reach capabilities with this new purchase; we are able to reach an additional 12 to 14 feet. This increase, up to 47 feet, will allow us to increase our community safety as we are able to reach more sight distance and safety concerns for signs, intersections, tree limbs, etc. The supply chain has impacted availabilities of these type vehicles. We were able to acquire a late 2021 model that was recently returned from the Versalift company having the service bed and lift system installed. 2022 models are still not available and are starting at \$10,000.00 higher. This purchase was planned for utilizing SPLOST funds. The Georgia Department of Administrative Services contract number is 99999-SPD SPD0000155-006.
