Lilburn, Peachtree Corners to Receive Over \$500,000 from Department of Transportation Grants

Safe Streets and Roads for All grant awards will fund safety action plans aimed at reducing fatalities

Duluth, GA — Today, Rep. Lucy McBath (GA-07) announced that the cities of Peachtree Corners and Lilburn are the recipients of two Safe Streets and Roads for All (SS4A) grant awards.

Peachtree Corners will receive \$309,600 to develop a comprehensive safety action plan, and to pilot traffic camera/sensors at targeted intersections where there are high volumes of traffic and pedestrians.

Lilburn will receive \$260,000 to develop a city-wide comprehensive safety action plan, conduct a roundabout feasibility study, and pilot temporary traffic calming measures such as planters, chicanes, and speed humps. Funding for the city of Lilburn was requested by McBath in a letter of support to Transportation Secretary Pete Buttigieg earlier this year.

“The creation and adoption of these Safety Action plans will improve safety on the roads, provide greater access to multimodal options for all, and allow Lilburn and Peachtree Corners to continue to be attractive places for residents and businesses to grow and thrive,” McBath said.

“I was so proud to support the Bipartisan Infrastructure Law, and I am thrilled to see yet another critical federal investment come to our community.”

Lilburn Mayor Tim Dunn applauded the work of McBath in helping local communities secure vital federal funding to improve safety.

“McBath continues to be attuned to the needs of communities in her district,” he said. “She has made safety a priority for us, which allows us to be a pleasant town in which to live and visit. We thank her immensely.”

The Safe Streets and Roads for All discretionary grant program was established under the Bipartisan Infrastructure Law in 2021. The discretionary program will appropriate \$5 billion over 5 years, 2022 to 2026. The SS4A program funds regional, local, and Tribal initiatives through grants to prevent roadway deaths and serious injuries.
