Search data

Welcome!

Need to lookup information about a property? See our easy to use applications below for more information!

myLilburn App | Tax Parcel Viewer App | Zoning Viewer App

Browse Data by Category

There's a lot to see here, so feel free to peruse our data library by the following categories

Housing and Properties | Transportation | Education | Boundaries

---

① Search for data:

Use the search bar to quickly find parcels, addresses, or other location-based data. Type in keywords like a parcel ID, address, or zoning information.
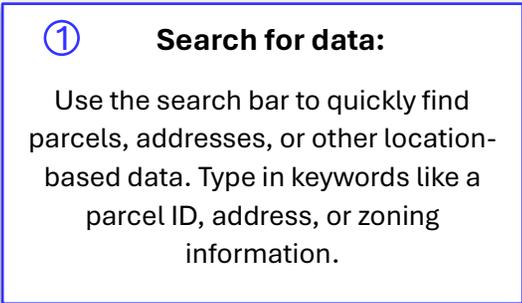

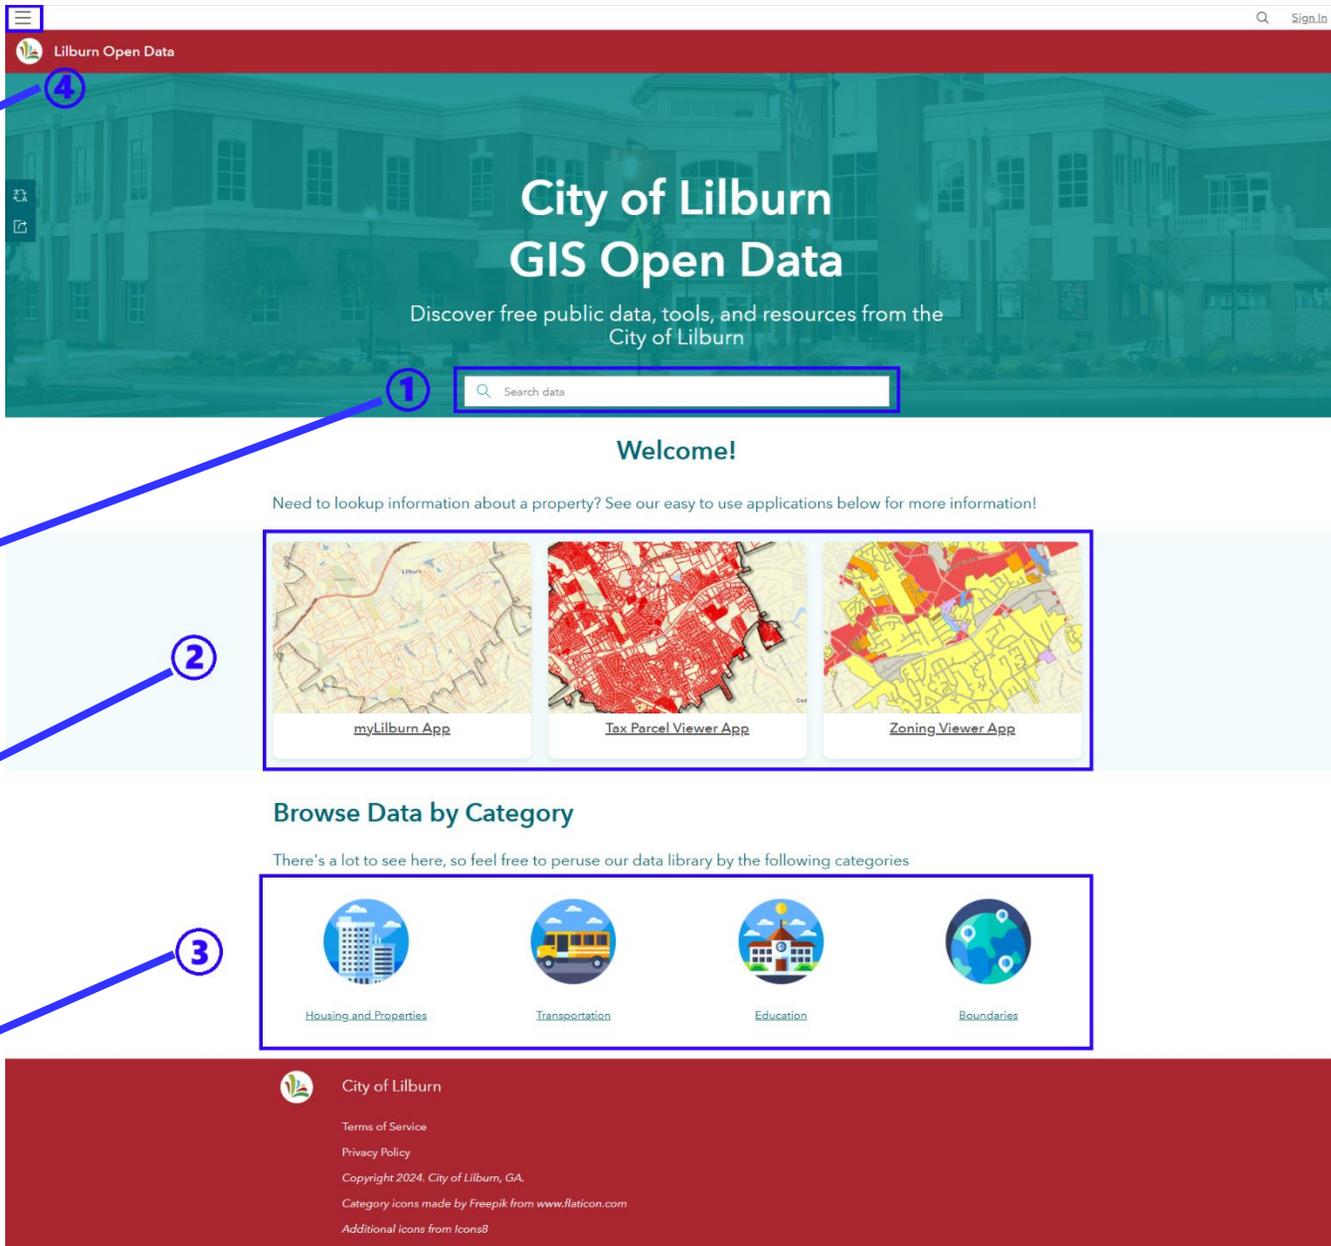

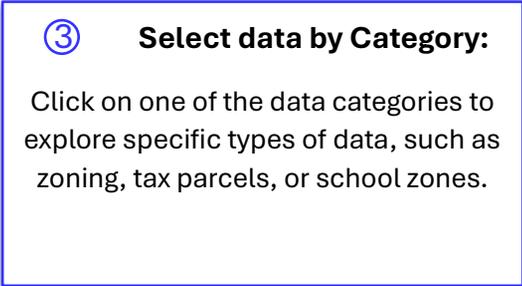

② Select an application:

You can choose and explore our applications to explore. Simply click on the picture or name to be taken to the application.
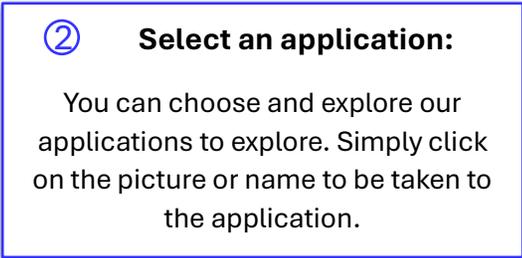

③ Select data by Category:

Click on one of the data categories to explore specific types of data, such as zoning, tax parcels, or school zones.

Searching or selecting a data category will bring you to the data page similar to this. Listed data will be different dependent on search or selection.

① Search for data:

You can use the search bar to search or refine previous searches. You can also select data type like Data, Documents, or Apps to filter.

② Listed Data:

The available data is in the list to the right. Clicking on the data will open it within a map view where you have the options to view, use, share, or download the data.

③ Filters:

There are several available filter options. Click on any of them to help narrow your search for data.
